**Food contact:** The sauce cups can be used for the following types of food: dry and fatty food and drinks

**Additional comments:** Testmethod according to EN 1186-9. The product is made of PVC. PVC is not suitable for food-contact applications in a Microwave oven due to high migration of DOA (Diocetyl adipate)

Temperature at use:	
Min	-18°C
Max	+50°C
Contact time/temperature	Up to 40°C no time limit, 40-50°C max. 3 hours
S/V Ratio	6 cm <sup>2</sup> /kg

This article is suitable for cold storage, cooling and storage at room temperature.

Datum: 12/05/2020

**The following tests are carried out:**

Total migration: complies with the migration limit of 60 mg/kg or 10mg/dm<sup>2</sup>.

Specific migration: comply with the specific migration limits

**Conclusions:**

The values obtained were compared with the limits according to Regulations (EU) No. 10/2011. In conclusion, regarding the experiments samples of this article is suitable for contact with all types for all time storage at max. 50°C according to the Commodity Act Packaging and Food Utensil Regulation of the Netherlands and its amendments up to and including VGP/VC 3048441 of 14 february 2011 and Regulations (EU) No 10/2011 of 14 January 2011 and amendments, provided a reduction factor of two or above as per Regulation (EU) 10/2011 is assigned to the foodstuff.

This product contains substances with restrictions	no
This product inholds monomers with restrictions	no
This product inholds additives with restrictions	no
This product inholds "dual use" drugs (additives subject to restriction in food)	no
Product is classified as packaging	yes
Product complies with the limit for heavy metals compiles 100ppm on a weight / weight basis (The total concentration of lead, cadmium, mercury and hexavalent chromium)	yes

This declaration is based on information of our supplier and therefore Weidelco is not liable in any way for any misunderstandings or incomplete information.

It should be noted that the product has been tested for the abovementioned forms of usage and conditions. Therefore, it will be the sole responsibility of the downstream users to determine that the usage of the product complies with the information given in this document and is safe, lawful and technically suitable so that no change in flavour, taste or organoleptic properties occurs. In case the product will be used in a different manner than tested, the information in this declaration of compliance will not apply and the downstream users shall be responsible for the compliance with the legislation and regulations.
